

General Instructions: Creating a team structure and operating principles.

Goal for the group: Develop the methods, definitions and writing of “how a learning team operates”.

The Outcome:

- Operating principles of a learning team
- Create a team charter
- Written procedures and processes for a team
- Defining the team’s culture

Tools:

- You can use any resource to find information (Web, books, people, etc.)
- You can work together to create your thoughts
- You need to write your thoughts as a group
- Your group will discuss and present your thoughts at the end of the project

How to begin:

- Follow the attached flow chart and develop your answers to the questions or thoughts.
- Do your best as there is no one right answer. Its what you want you make of it.
- Think of and define the following life skills: Listening skills. Non-verbal skills, planning and goal setting, controlling your emotions, how to deal when you have a dis-agreement with others. Empathy for others,
 - Create an index card with a two sentence description for the skill
 - Try to implement the skill in your everyday activity
 - Reflect on your growth or lack of growth
