

Ownership-mindset

Students are shown how to be an owner of their own business; what's involved with their customers, suppliers and staff.

Thinking like an owner allows you to interface and understand your boss and

constantly improving your skills.

- **What is your business** ... Its you
- **Selling yourself-** What's your brand? How do you want people/organizations to see you?
- **You have customers** (your teacher, supervisor) ... How do you served them (What's their needs) and make them successful?
- **Improving your business** – Its being a lifelong learner, you sell knowledge and skills
- **Partnering with others** – Working with your peers in a team environment
- **Connecting with community** – working with others for the benefit of your team.
- **Quality focus-** looking for continuous improvements in the services you provide.
- **Financial management-** managing your finances to grow your business.
- **Product development-** Being innovative and curious to develop new skills and services for your customers
