

Title: Background items around securing a new job

Overview:

Need to establish the basic items around creating this process. Such things as:

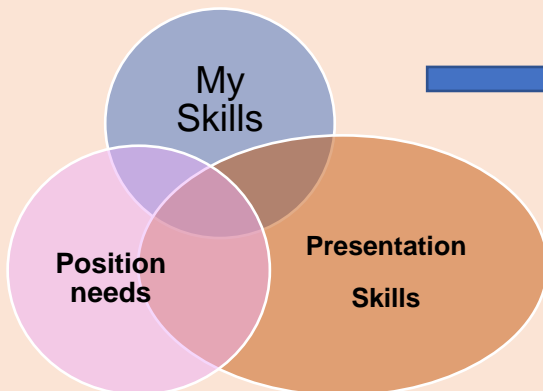

- What is the environment where the class will be held
- What tools are needed
- Who are the target population?
- Do we have templates for the needed documents?

Essential Questions:

What are we looking to do?
How would we judge success?
What do we have to design to solve this issue?
What is the purpose of this design?
What would the goals and objectives be?
Can we break the problem/design into parts?
When we reach a road block, we will be able to decide an new path

Tasks

- Create activities for the target audience that they use questions to dig deep into the learning process.
- Target audience to be self-direct in their learning activities and build on the feedback from the team.
- Improv techniques will be modeled to encourage quick thinking and follow-up action.
- Self-reflection about who we are and encouraged to learn about our brand that we present.
- Review key presentation of selling ourselves to others.
- Use questions, drawings, improv to learn life-skills.
- Build team togetherness using ice-breakers, improv's and games.

Learning overview skills:

Social & Emotional learning	Thinking skills
Professionalism	Team work
Problem solving	Communication
Attitude	Presentation
