

# **CIVILITY BETWEEN POLITICIANS**

As Seen by A.I. CHAT BOT

## What I saw at the Congressional hearing between Mitt Rommy and Bernie Sanders!

March. ~28<sup>th</sup>  
2023

In the witness stand was Howard Shultz of Starbucks being questioned by **Bernie Sanders**. regarding the issue of labor unions being formed in Starbuck stores.

Standers showed no Civility for Howard Shultz in his efforts to providing workers with good education and working employment when questioning.

**Mitt Rommy** accused Bernie Sanders of only caring about creating labor unions because union general fund Democratic candidates. Not mentioning how Police Unions are funding Republicans? These are two leaders in our congress.

# PROBLEM I AM WORKING ON

Poor Communications between our leadership in the Political Parties.

*Written by AI*

As a society, we are facing many challenges and there are significant differences between us on issues ranging from politics and religion to culture and values. These differences can create tension, division, and even conflict. However, it is important that we recognize that despite our differences, we are all part of the same community and share a common humanity. If we are to build a stronger, more united society, we must be willing to engage in respectful dialogue about our differences and work together to find solutions that benefit everyone.

## Continued

Use as a  
question

It is easy to fall into the trap of seeing those who disagree with us as enemies or adversaries. But the reality is that we **all want to live in a safe, prosperous, and just society**. By coming together and listening to one another, we can begin to bridge the gaps that divide us and build a more inclusive, tolerant, and understanding community.

Dialogue is not always easy, and it requires a willingness to listen, to learn, and to challenge our own assumptions and beliefs. But if we are willing to take that step, we can begin to create a society where everyone has a voice and where diversity is celebrated rather than feared. **So let us come together, let us listen to one another, and let us work towards a brighter future for us all.**

PRESENTATION**

# ChatGPT --- AI Bot I am using

## Examples

"Explain quantum computing in simple terms" →

"Got any creative ideas for a 10 year old's birthday?" →

"How do I make an HTTP request in Javascript?" →

## Capabilities

Remembers what user said earlier in the conversation

Allows user to provide follow-up corrections

Trained to decline inappropriate requests

## Limitations

May occasionally generate incorrect information

May occasionally produce harmful instructions or biased content

Limited knowledge of world and events after 2021

# WHAT IS A.I (ARTIFICIAL INTELLIGENCE )

**AI IS NOT JUST ONE PROGRAM BUT A SERIES OF PROCESSES THAT BREAK THE QUESTION/SUBJECT INTO MANY PARTS AND WORK ON EACH.**

Artificial Intelligence (AI) is a term used to describe the development of computer systems that can perform tasks that would normally require human intelligence, such as learning, problem-solving, and decision-making

One branch of AI is called Machine Learning (ML), which involves teaching computers to learn from data and make decisions based on that learning. This is done through algorithms that can detect patterns in large amounts of data and use those patterns to make predictions or take actions.

## Other Branches

## Human nature

Another branch of AI is called Natural Language Processing (NLP), which involves teaching computers to understand and process human language. This allows for the creation of chatbots and other conversational interfaces that can communicate with humans in a natural way

## What does it mean that we all want to live in a safe, prosperous, and just society?

My Question

Living in a safe, prosperous, and just society means that individuals have the freedom and opportunity to live their lives without fear, have access to basic needs such as food, shelter, and healthcare, and are treated fairly and equally under the law. Here's what each of these terms mean:

**Safe:** A safe society is one where individuals are protected from harm and have access to the resources necessary to keep themselves and their families safe. This includes having a well-functioning justice system, effective law enforcement, and access to healthcare and social services.

**Prosperous:** A prosperous society is one where individuals have access to the resources they need to thrive. This includes having access to education, job opportunities, and a stable economy that supports businesses and individuals.

**Just:** A just society is one where individuals are treated fairly and equally under the law. This includes having access to a justice system that is impartial and transparent, and where individuals are held accountable for their actions regardless of their race, gender, or socio-economic status.

Ultimately, living in a safe, prosperous, and just society means having access to the resources and opportunities necessary to live a fulfilling life and pursue one's dreams. It means being able to trust in the fairness and integrity of institutions and systems, and feeling secure in one's own person and community.

AI Answer

## How can we stop the divide between the red and blue states in the USA?

### My Question

Stopping the divide between red and blue states in the USA is a complex issue that requires a multifaceted approach. Here are some steps that could potentially help bridge the divide:

**Encourage Civil Discourse:** One of the primary causes of the divide is the lack of civil discourse between opposing sides. We can start by promoting civil discourse, encouraging people to listen and learn from each other, and respecting differences of opinion.

**Foster Empathy:** Empathy is crucial to bridging divides, and it requires people to understand and relate to each other's experiences. We can foster empathy by promoting interactions between different communities, encouraging people to listen to each other, and educating ourselves on different perspectives.

**Address Economic Disparities:** Economic disparities can also contribute to the divide. Addressing economic disparities could help create a more equitable society that is less divided along political lines.

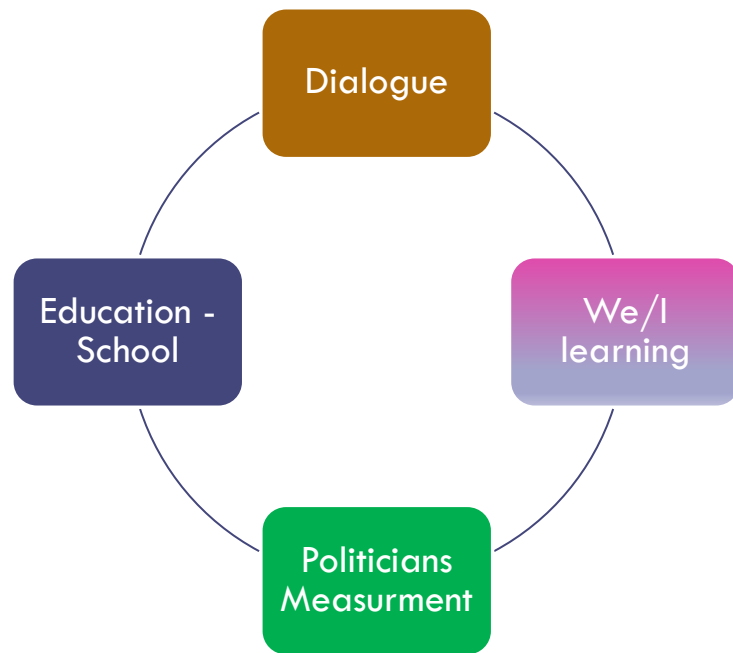

**Encourage Political Moderation:** Encouraging political moderation can also help bridge the divide. This can be achieved by promoting independent thinking, encouraging compromise and collaboration, and supporting political leaders who prioritize common ground.

**Promote Civic Education:** Education is a powerful tool to bridge the divide. Promoting civic education can help citizens become informed and engaged, and encourage them to participate in their communities and the political process.

### Answer

Overall, bridging the divide between red and blue states requires a collective effort that involves individuals, communities, and political leaders. By working together to promote civil discourse, foster empathy, address economic disparities, encourage political moderation, and promote civic education, we can create a more unified and inclusive society.

# WHAT CAN WE DO?

You get What You Measure

**Look to Business** ---

The Balance Scorecard  
Setting Goals & Measure  
with feedback & Reflection

# THE BALANCE SCORECARD HBR 1992

## FINANCIAL WAS A BACKWARD LOOKING MEASUREMENT

### WHAT ARE THE FOUR BALANCED SCORECARD PERSPECTIVES?

THE BALANCED SCORECARD APPROACH EXAMINES PERFORMANCE FROM FOUR PERSPECTIVES.

**FINANCIAL ANALYSIS**, WHICH INCLUDES MEASURES SUCH AS OPERATING INCOME, PROFITABILITY AND [RETURN ON INVESTMENT](#).

**CUSTOMER ANALYSIS**, WHICH LOOKS AT INVESTMENT IN CUSTOMER SERVICE AND RETENTION.

**INTERNAL ANALYSIS**, WHICH LOOKS AT HOW [INTERNAL BUSINESS PROCESSES](#) ARE LINKED TO STRATEGIC GOALS.

**THE LEARNING AND GROWTH PERSPECTIVE** ASSESSES EMPLOYEE SATISFACTION AND RETENTION, AS WELL AS [INFORMATION SYSTEM](#)

**You Get What You Measure**

**Set Goals and Measurements**

# Creating a list of deliverables that the politicians need to meet in recognizing all its citizens:

**innovation**, the country can develop new products, services, and technologies that can help to address social, economic, and environmental challenges, and drive long-term economic growth.

**Promoting safety**: By promoting safety, politicians can help to reduce crime rates, protect national security, and create a more secure and stable society.

**Growing the economy**: By growing the economy, politicians can create new jobs, increase wages, and boost economic activity, which can help to improve living standards for everyone.

**Improving health and housing**: By improving access to healthcare and housing, politicians can help to promote a more equitable and healthy society, where everyone has the opportunity to lead fulfilling and prosperous lives.

Overall, these goals can help to create a more prosperous, equitable, and sustainable society, where everyone has the opportunity to thrive. By working towards these goals, politicians can help to build a better future for the United States and its citizens.

# Examples- Ethnical Measurements for our Politicians

Model	Great	Med.	Low
No personal attacks Civility			
Explaining their reason behind decisions. Transparency of thought			
Listening to others that have different opinions. <b>Curiosity</b> Represent 100% of your constituents			
Embrace diversity of thought			
Look for compromise ... Common ground			

# Goals for Society: clear, concise, and actionable

## Examples

Measurement / Goals	Achieved	Partial	Low
<b>The country becoming more productive</b>			
<b>Increase Innovation in Society</b> <b>New company formed &gt;4%</b>			
<b>Safer in the USA</b> <b>Killings &amp; Suicide &lt;4%</b>			
<b>Growing Economy &gt;4%</b>			
<b>Better health and housing for all citizens</b>			

# Other Countries Measurement

Do other countries in the world have an ethical code of conduct for their politicians?

**My Question**

Yes, many other countries in the world have ethical codes of conduct for their politicians. These codes typically set out standards of behavior and expectations for elected officials, and are designed to promote transparency, accountability, and integrity in public governance. Some examples of countries with ethical codes of conduct for politicians include:

**United Kingdom:** The UK has a Code of Conduct for Members of Parliament, which sets out standards for ethical behavior, including principles related to honesty, transparency, respect, and accountability.

**Canada:** The Canadian government has a Conflict of Interest and Ethics Commissioner, who is responsible for enforcing the Conflict of Interest Act and the Conflict of Interest Code for Members of the House of Commons.

**Australia:** The Australian government has a Parliamentary Code of Conduct, which sets out standards for ethical behavior, including principles related to transparency, accountability, and respect for the law.

**New Zealand:** The New Zealand government has a Code of Conduct for Members of Parliament, which sets out standards for ethical behavior, including principles related to honesty, integrity, and respect for the rule of law.

**Germany:** The German government has a Code of Conduct for Members of the Bundestag, which sets out standards for ethical behavior, including principles related to transparency, accountability, and respect for the law.

# Setting up a Measurement system for the Politicians

SETTING UP A MEASUREMENT SYSTEM FOR POLITICIANS THAT MEASURES AND REPORTS ON "EXPLAINING THEIR REASON BEHIND DECISIONS" AND "TRANSPARENCY OF THOUGHT" REQUIRES A STRUCTURED APPROACH. HERE ARE SOME STEPS THAT COULD BE TAKEN TO ESTABLISH SUCH A SYSTEM:

DEFINE THE CRITERIA:

ANALYZE THE DATA: :

IDENTIFY PATTERNS AND TREND

DEVELOP A DATA COLLECTION METHOD:

PROVIDE FEEDBACK AND CONSEQUENCES:

**IN CONCLUSION**, SETTING UP A MEASUREMENT SYSTEM FOR POLITICIANS THAT MEASURES AND REPORTS ON TRANSPARENCY OF THOUGHT REQUIRES A SYSTEMATIC AND STRUCTURED APPROACH. BY DEFINING THE CRITERIA, DEVELOPING A DATA COLLECTION METHOD, ANALYZING

# How to Roll it Out ?????

*Who does this?*

<b>Create Script ( Measure) by this group--- if agreed</b>
<b>Create a list of Organizations and People to speak to</b>
<b>How will we do the measurement of the Politicians?</b>
<b>Reporting and Feedback</b>
<b>Publishing to all</b>

<b>League of Women Voters</b>	<b>Political Parties</b>
<b>Veteran's groups</b>	<b>Local Organizations</b>

# REFLECTION --- YOU GET WHAT YOU MEASURE

## Discussion

**We have a problem in the USA**

**What is it?**

**What should our Solution be? Does it fit?**

**How would we Implement the Solution**

**How do we Track the Results**
