

Summary Sheet: Project Academy:

Project Academy is a 501 (C)3 non-profit corp. that helps fill the gap between traditional education and real life by facilitating fun programs that are thought provoking after-school learning experiences for middle /high school age students. These are focus on problem solving, teamwork, ownership, thinking and reasoning skills to promote life-long learning and college or career readiness skills.

We do this by:

- Out-sourcing our services for the implementation using trained facilitators and/or providing professional development for your after-school staff.
- Facilitating team based thought-provoking problem-solving experiences focused on solving community, educational &/or world problems.
- Infusing the project based learning process experience with life skills.
- Have a series of follow-on projects for the students to increase their skill level. .
