

Elevator Pitch--- 30 second talk about your future company

Project Academy was created to help young adults (who graduated HS or did not) enter the work force with the necessary **soft skills** to be successful in life. I have worked in Industry as well as Education hoping to combine the best of each world.

Our goal is to create a successful curriculum and the means to provide it to these young adults. We will do this by partnering with a provider of learning or creating a school to deliver this process

Our uniqueness is in How we view our students as partners who own their learning and provide the following:

- **Ownership mindset ... *Think like an owner***
- **Cultural Engineering mindset ... *Provide leadership & management of a project***
- **Growth mindset... *Your brain is like a muscle, use it or lose it***
- **Team mindset ... *To be successful. You need to work together***
- **Brand mindset ... *Who you are and how to show the world***
- **Life skills ... *Students become cognitively aware of their life skills while doing activities***

The market we are serving are community colleges, Industry Corporations, organization servicing young adults at risk (Drug rehabilitation, half-way facilities)

Benefits

- **Getting to know your self and study social and emotional learning**
- **Learning the skills of a Team Community & Problem Solving**
- **Getting to know other participants**
- **Exploring your value system, and learning skills**
- **Learning to use thinking skill tools**
- **Reporting and presenting your thoughts to others**
- **Having fun**
- **Bring back to your community new tools for working together**
