

We Community

Create these elements.

Community

- Community is a group of individuals connected to each other by one or more attribute(s).
- The concept of community is applied to a village, a city, a tribe or a nation. When the members of a group live together and share **basic conditions of a common life**, we call that group a community.
- A community is a familiar **thread** used to bring people together to advocate and support each other in the fight to **overcome those threats**.
- We are all members of many communities (family, work, neighborhood, etc.), and we constantly move in and out of them, depending on the situation.
- Community is where we find comfort in difficult times. When things are not going well in one community, we have the option to move to another. The community is where one finds the balance between physical and mental fitness.
