Stating with Culture and Values-07242016
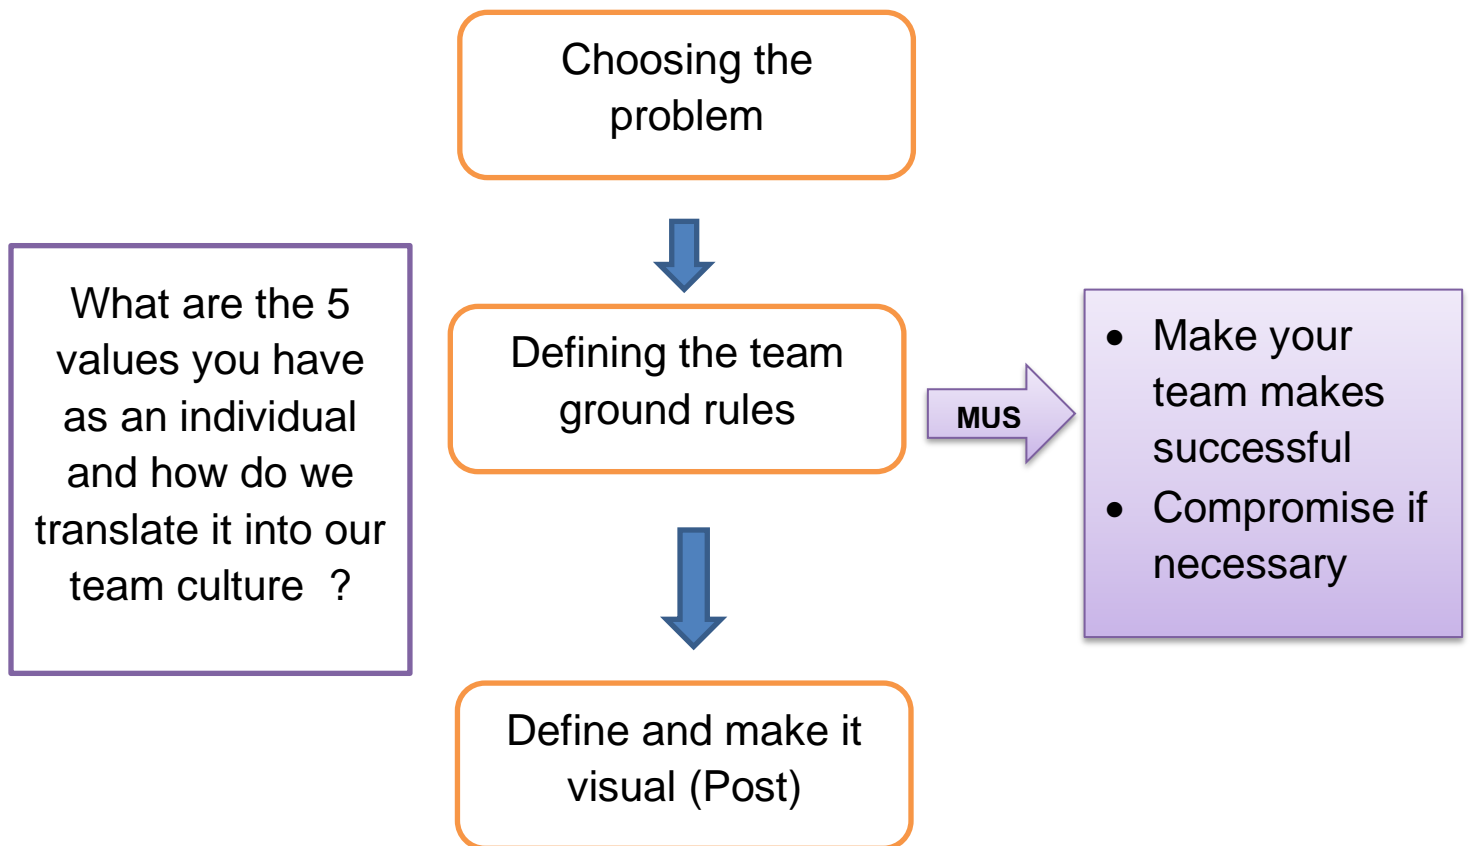

Definitions:

Culture: Sum of attitudes, customs & beliefs that distinguishes one group of people from another
Values: A person's principle or standards of behavior; one's judgement of what's important in life. Synopsys Principles, ethics, moral code, morals, standards

After the students choose what problem they are to solve, the next steps are defining how the team is to operate.

Choosing the problem

↓

What are the 5 values you have as an individual and how do we translate it into our team culture ?

Defining the team ground rules

MUS →

- Make your team makes successful
- Compromise if necessary

↓

Define and make it visual (Post)

Project Academy

- What is our mission?
- How do we operate?
  (R:\tec_engr_consulting_12092015\Tools\teams)
- What are our roles on the team?
- How do we build trust?
  (R:\tec_engr_consulting_12092015\Tools\teams)
- What are the possible dysfunctions that can occur?
