

Learning Targets

Represent Clear, Manageable Goals

Section: bb1-selection

Develop learning targets for myself using “I Can...”

Section	Learning targets
Introduction	Why is it difficult to determine the right problem we are solving? Discuss.
Research	I can research other media to find if others have ideas about this potential problem.
Other ways to look at the problem	Can I modify the format of the problem that would help solve it?
Creating a learning opportunity- Root cause	Can I create with my learning buddy a tutorial for others about selection method?
Practice	How can I practice this process to get better at the selection?
Reflection	I can discuss what I learned and what I need more help with.

Notes:

What learning elements do we want to take away from doing this section of the project.

Do we want to add or modify our targets?
