

Learning Targets

Represent Clear, Manageable Goals

Section: bb1-test-report

Develop learning targets for myself using “I Can...”

| Section | Learning targets |
|---------------------------|--|
| | |
| Introduction | Why is testing your design important? |
| Peer creation | How can we make this concept better understood? |
| What did we learn? | What have we learned after doing this design? |
| Reporting | What organizations do we want to report our results to? |
| Create a tutorial | I can create an elevator pitch tutorial |
| Reflection | I can discuss what I learned and what I need more help with. |

Notes:

What learning elements do we want to take away from doing this section of the project.

Do we want to add or modify our targets?
