

Focus on a bee searching for nectar in plants. Some flowers provide more and different types of nectar.

Each chapter will have a different plant and a short description that connects the plants to the learning of that chapter.

grade

Series ... 1/2025 ... 3<sup>rd</sup> to 6<sup>th</sup>

first	What Bugs me
2 <sup>nd</sup>	From bug to spider ...How the idea spread Add stories of problems

3 <sup>rd</sup>	How do we talk ... Human skills & questions
4 <sup>th</sup>	Valuing ourselves ... Who are we
5 <sup>th</sup>	Playing together ... Learning & fun in a team
6 <sup>th</sup>	Making things better ... Innovation & problem solving while encountering failures
7 <sup>th</sup>	Creating a story ... Writing, music, art for all

### Theme of the series:

Young children at play discover things that bother them and grow to integrate into their life style how to manage problems and bring a process of solutions for them & their families while encounter failures.

The story is narrated thru Mr. Lu their teacher in school who finds his passion supporting the students growth.

Making it interesting and exciting

1. Mr. Lu history of problems in becoming a US citizen that children want to solve
2. One of the children thinks problem solving is too hard like math'
3. Failure is a good learning experience
4. How am I growing as an individual
5. Discovering the fun in stories we read in school is like our bugs
